-Mid-year data dig into student outcome at this midpoint of the school year.

“Improvement matters. It affects the lives of children. It is vital to ‘get good at it.’

Improvement must become a permanent part of school practice, not a one-time or occasional event.”

#1 Understanding the power of core instruction-What is core? That first dose, explicit instruction. At least 80% of the kids will “get it” from core instruction. Area of challenge is core instruction-we have not reached the level we are after yet. “We can’t intervene our way out of weak core instruction.”

School Priority-

Instructional coherence-common approach to teaching and learning

#2 Sharing responsibility and commitment to student learning-highly effective teachers

Public practice-we are transparent with our instruction, with our planning, etc.

Educationally relevant and alterable
