

SCHOOL COMMUNITY COUNCIL (SCC)

Serving on a School Community Council (SCC) is a wonderful way for parents to be **actively involved** in their children's education. In the Canyons School District, School Community Council members review school data, identify school needs, establish school goals, and allocate funds toward accomplishing those goals. Every year, each School Community Council creates school plans and reviews district plans with the overarching goal of addressing their school's greatest academic needs and creating a safe learning environment. Areas the SCC focuses on include:

LAND Trust Plan

Councils prioritize how funds from Utah's School Learning and Nurturing Development (LAND) Trust program will be used to address the school's greatest academic needs.

Teacher Student Success Plan

Councils allocate funds provided through the Teacher Student Success Act to areas or initiatives that will improve school performance or student academic success.

School Safety Plan

Councils consider and address specific safety concerns faced by students and staff in the classroom, on school grounds, and in traveling to and from school.

Digital Citizenship Plan

Councils produce plans and programs that empower students to think critically, behave safely, and participate responsibly in our digital world.

Positive Behavior Plan

Councils address student use of tobacco, alcohol, e-cigarettes and other controlled substances. These plans also consider peer pressure, mental health and meaningful relationships.

Advise and Recommend

Councils may advise the school principal and provide feedback to the Board of Education on other issues.
